

Program 27: Bar Chart of Programming Languages

AIM

To write a Python program to display a vertical bar chart of the popularity of programming languages.

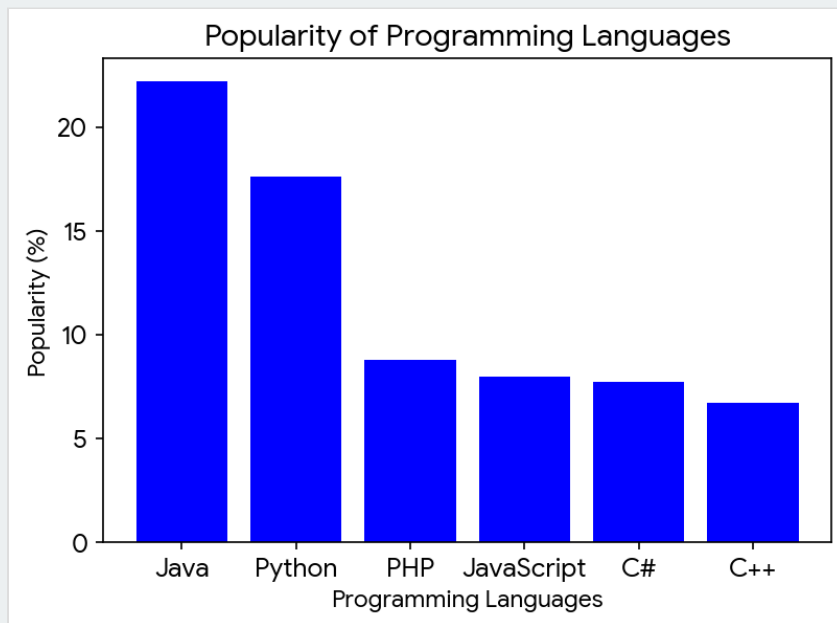

CODE

```
import matplotlib.pyplot as plt

languages = ['Java', 'Python', 'PHP', 'JavaScript', 'C#', 'C++']
popularity = [22.2, 17.6, 8.8, 8, 7.7, 6.7]

plt.bar(languages, popularity, color='blue')
plt.xlabel('Programming Languages')
plt.ylabel('Popularity (%)')
plt.title('Popularity of Programming Languages')
plt.show()
```

OUTPUT

Result: The vertical bar chart visualizing programming language popularity was successfully generated.

Program 28: Horizontal Bar Chart

AIM

To write a Python program to display a horizontal bar chart of the popularity of programming languages.

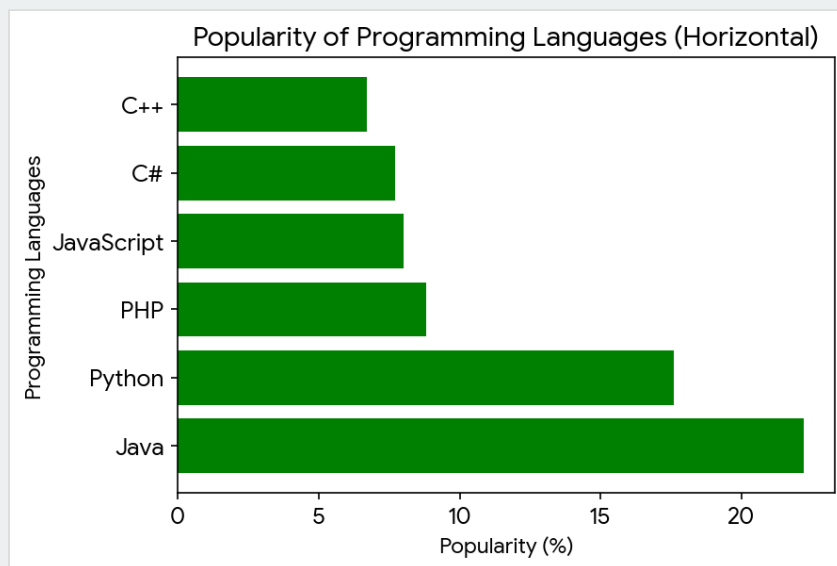

CODE

```
import matplotlib.pyplot as plt

languages = ['Java', 'Python', 'PHP', 'JavaScript', 'C#', 'C++']
popularity = [22.2, 17.6, 8.8, 8, 7.7, 6.7]

plt.barh(languages, popularity, color='green')
plt.xlabel('Popularity (%)')
plt.ylabel('Programming Languages')
plt.title('Popularity of Programming Languages (Horizontal)')
plt.show()
```

OUTPUT

Result: The horizontal bar chart was successfully generated for better readability of the language labels.
